ENHANCED REPORTING AND ALERTING WITH 1010DATA'S METRIC INSIGHTS INTEGRATION

1010data's Big Data Discovery platform and Metric Insights' Push Intelligence capabilities combined into one powerful solution delivered straight to your inbox

ADVANCED EXCEPTION-DRIVEN REPORTING

With 1010data and Metric Insights, all your analysis is exception-driven. You know exactly when and where you need to take a closer look at the data. You can schedule interactive reports to be pre-run and automatically distributed straight to your inbox when the latest data is available, or just before your team's daily or weekly meeting. You can also set push-based alerts that notify you of statistically significant events in the data or when KPIs meet predefined thresholds.

BEAUTIFUL REPORTING ON ANY DEVICE

The joint solution between Metric Insights and 1010data enables you to create beautiful visual analyses that present the most relevant KPIs to every decision maker in your business. Users can drill down to the most

Mix and match among the visualizations that best represent your data and enable the most efficient and effective business decisions.

granular supporting data to uncover deeper insights. Insights are delivered through any device including desktop, tablet, mobile and wearables.

INTUITIVE VISUALIZATION

With Metric Insights and 1010data, you can always present data in the most intuitive way. On a single report, you can mix and match the graph and chart types that make the most sense for your data. From simple line charts to pie charts, 3-D pyramids, funnels, bubble graphs, box-and-whiskers and more – rendered as full size visualizations or microcharts – you can do it all.

SEAMLESS COLLABORATION

The best business decisions are made when you can collaborate with your expert colleagues. 1010data Big Data Discovery ensures that everyone's working with a "single version of the truth" so there's never any disagreement about the numbers. Metric Insights allows you to comment on, annotate, and easily share your analyses so you can collect the best thinking from every member of your team.

TIGHT INTEGRATION

The integration between 1010data and Metric Insights is totally seamless and fully supported. You can control everything from analytics in 1010data to visualization in Metric Insights using 1010data's powerful XML macrocode query language.
